AGRICULTURAL EFFICIENCY PROGRAM (ELECTRIC)

Program Application

SOUTHERN CALIFORNIA EDISON
An EDISON INTERNATIONAL Company

We understand that the agricultural industry can be energy intensive. The Agricultural Efficiency Program can help your operations with available incentives, expert assistance, and on-bill financing.

Incentives and Financing

By helping you find the right energy efficiency solutions and upgrades, we simplify the process of improving your growing and on-site processing and drying facilities. We offer valuable incentives and support in obtaining additional grants and financing to make your upgrades more affordable—helping you save now and in the future.

Customer Eligibility Requirements

Qualifying businesses must be listed under North American Industry Classification System (NAICS) Code 11 and have an active service account with Southern California Edison (SCE). Processing, and drying facilities must be co-located with growing operations to qualify for incentives. In addition, businesses must not have received an incentive from SCE for the same equipment within the past five years.

*Title 20 refers to Appliance Efficiency Regulations; Title 24 outlines Building Energy Efficiency Standards. Please visit the California Energy Commission at energy.ca.gov for more information.

General Equipment Requirements

- All equipment must be new electric equipment. Fuel switching does not qualify.
- Qualifying equipment must be installed between January 1, 2026, and December 31, 2026. In addition, the purchase date of the equipment must be within 18 months of its installation date, unless indicated otherwise.
- All required efficiencies must exceed Title 20 and 24 standards.*
- Equipment must meet the program's technical specifications and be approved by the program manager. Your account manager will provide guidance on measure-specific information.

Measure Information

Measure Name	Purchase Date	Actual or Expected Installation Date

Does the facility have on-site electricity generation? ☐ Yes ☐ No

If yes, please describe: ☐ Solar Photovoltaics ☐ Cogeneration ☐ Other

Does the facility have a backup generator? ☐ Yes ☐ No

Does your organization communicate in a primary language other than English? ☐ Yes ☐ No

If yes, language spoken: ☐ Armenian ☐ Cantonese ☐ Korean ☐ Mandarin ☐ Spanish ☐ Tagalog ☐ Vietnamese ☐ Other _____

Is the property the business is located on rented or leased? ☐ Yes ☐ No

Does your business have 25 or fewer employees? ☐ Yes ☐ No

Business Pay Tax Information (check one): ☐ Individual ☐ Corporation

Program Enrollment Form (continued)

How did you hear about the Program? ☐ Postcard ☐ Email ☐ Internet ☐ Ag Industry Event or Organization ☐ Other _____

Are there any bio-security issues related to visitors at your farm? ☐ Yes ☐ No

Do you plan on utilizing IRA funding for this project? ☐ Yes ☐ No

Information on IRA funding is available here: https://www.irs.gov/credits-and-deductions-under-the-inflation-reduction-act-of-2022

☐ Per SB1414 requirements reference Section 399.4 of the Public Utilities Code, the energy efficiency equipment that will be or has been installed complies with all applicable permitting requirements, including any applicable specifications or requirements set forth in the California Building Standards Code Title 24 of the California Code of Regulations), and the Contractor that will perform or has performed the installation holds the appropriate license for the work. Additionally, proof of a closed permit must be maintained and provided to the Program upon request.

☐ I have read and understand the terms and conditions. I certify that the information I have provided is true and correct and the products for which I am requesting a rebate meet the requirements listed on the rebate products form and specification sheet.

Authorized Signature Date

Authorized Customer Name (Print)

This program is funded by California utility ratepayers and is being developed, implemented, and offered by ICF to Southern California Edison (SCE) customers through a contract with SCE under the auspices of the California Public Utilities Commission (CPUC). This program may be modified or terminated without prior notice and program funds are provided to qualified customers on a first-come, first-served basis until program funds are no longer available. Eligibility requirements apply. Customers who choose to participate in this program are not obligated to purchase any additional goods or services offered by implementer. The trademarks used herein are the property of their respective owners.

Terms and Conditions

1. I understand that (1) the Agriculture Energy Efficiency (AgEE) Program (Program) is available to all SCE agricultural customers that hold an active service account and are classified under Sector 11 of the North American Industry Classification System (NAICS), and (2) agriculture processing facilities must be co-located with growing operations to be eligible to participate in the Program.

2. I represent that (1) I am an eligible SCE agriculture customer, (2) that I have or will have installed the energy-efficiency equipment specified for my project between January 1, 2026, and December 31, 2026, for use in my agriculture facility and not for resale or otherwise, (3) the date of purchase of such Equipment is within 18 months of its installation date, and (4) I would not have purchased the Equipment at this time if the Program had not offered a monetary rebate/incentive. I understand that this application and the paid itemized invoice for labor a materials/equipment must be received through the Program's online application system no later than December 31, 2026, unless otherwise specified by an authorized Program representative. I understand that incomplete and incorrect applications will not be processed. Applications can be submitted directly to the Program's online application system or by postal mail to: AgEE Program, c/o ICF, 555 W 5th St. Ste 3100, Los Angeles, CA, 90013.

3. I understand that the installation of the Equipment may require ICF Resources, LLC ("ICF") and/or its subcontractors to enter my facility. I agree to permit ICF and its authorized subcontractors to complete an energy survey and install the Equipment at my facility, as applicable. I will notify ICF of any biosecurity issues or hazards present at my facility.

4. I acknowledge that I have been notified of SCE's California Consumer Privacy Act (CCPA) Policy. Personal information may be solicited; visit sce.com/privacy to review SCE's CCPA Notice at Collection.

5. I will allow, if requested, a representative from SCE, ICF, the California Public Utilities Commission (CPUC), and/or any authorized third party reasonable access to the property where the Equipment is located to verify the installed Equipment before a rebate/incentive is paid.† I understand that SCE, ICF, CPUC, and/or any authorized third party may contact the qualifying Equipment vendor and/or installer to verify purchase and/or installation of the Equipment and may provide my name and/or address to complete this verification. I understand this inspection is for the purpose of determining that the installed Equipment meets all Program requirements.
   I understand that rebate/incentive applications that are submitted to SCE may be randomly selected for inspection to ensure Program and quality control compliance, and that a virtual video inspection may be requested to verify the installation of the Equipment prior to rebate or incentive payment.

6. I understand that my Project may be selected for evaluation studies and or Program measurement by contractors appointed by the CPUC. These studies are used to analyze and improve Program performance. I agree to participate by responding to inquiries from these contractors in a timely manner.

7. I understand that in no case will the Program pay more than 100 percent of the actual purchase price of any Equipment for which a rebate or incentive is eligible or the maximum allowance per unit, whichever is less. For the purposes of this paragraph, "purchase price" means the cost of the Equipment. Sales taxes are not included in the Equipment purchase price.

   I understand that I cannot receive a rebate or incentive for the same Equipment from more than one California Investor-Owned Utility (IOU) participating in this Program or other third-party programs offering rebates, financing, and other incentives funded by the CPUC. I understand that I cannot receive a rebate or incentive for any Equipment for which I have received a rebate or incentive from SCE in the five years prior to the application date.

8. I agree to remove and dispose of the existing equipment being replaced by the Measure Equipment in accordance with all federal, state and local laws and shall provide proof of such disposal upon request by ICF.

9. I certify that the information on this application is true and correct, and that the IRS Tax ID provided is accurate.
   I understand that rebate/incentive payments are based on related energy benefits over the life of the Equipment. I agree to maintain the energy-efficient measure(s) specified in this application for the life of the Equipment or a period of five years from receipt of rebate/incentive funds, whichever is less. If the above ceases to be the case, I shall refund a prorated amount of rebate/incentive dollars to SCE based on the actual period of time for which I provided the related energy benefits as a customer of SCE. I understand that this Program or individual measures offered as part of this Program may be modified or terminated without notice.
   I certify that all incentivized Equipment must be purchased new, and I understand that resale products and products leased, rebuilt, rented, received from insurance claims or won as a prize, or new parts installed in existing products do not qualify. I understand rebates or incentives will only be paid for Equipment that meets the specifications of the Program.

10. I understand that rebates or incentives could be taxable, and that I am urged to consult my tax advisor concerning the taxability of any rebates or incentives paid through this Program. Rebates or incentives greater than $600 will be reported to the IRS on Form 1099 unless I am a corporation or have tax exempt status and have noted as such in this application. Neither SCE nor ICF are responsible for any taxes that may be imposed on me or my business as a result of the receipt of a rebate or incentive.

†Please reference items 11 and 12.

11. SCE makes no warranty, whether express or implied, including the warranty of merchantability or fitness for a particular purpose, of goods or services I select (including the Equipment). SCE does not endorse, qualify, or guarantee the work of any contractor utilized in connection with this Program. I acknowledge that I am not obligated to purchase any additional goods or services offered by any such contractor due to my choice to participate in this Program. I understand that my reliance on warranties is limited to any warranties that may arise from or be provided by contractors or vendors providing goods or performing services in connection with Equipment. Neither SCE nor ICF are responsible for assuring the design, engineering, or construction of the facility or installation of the Equipment are proper or comply with any particular laws (including patent laws), codes, or industry standards. Neither SCE nor ICF make any representations of any kind regarding the results to be achieved by the Equipment or the adequacy, safety, reliability, and/or efficiency of such Equipment. The selection, purchase, and ownership of the Equipment are my sole responsibility.

12. To the maximum extent permitted under applicable law, neither SCE nor ICF shall be liable to me or any other parties for any indirect, special, consequential, or incidental damages, regardless of the theory of recovery, caused by, in connection with, or arising from any activities associated with this Program.

13. Neither SCE nor ICF shall have (1) any obligation to maintain, remove, or perform any work whatsoever on the installed Equipment, or (2) any liability arising from a contractor's installation of the applicable Equipment or its failure to perform, for failure of the Equipment to function, for any damage to my premises caused by the contractor, or for any damages to property or injuries to persons caused by the Equipment.

    Important: In accordance with SB1414 reference section 399.4(b), the completed energy efficiency measures installed at the project site location noted above have complied with all applicable permitting requirements, including any applicable specifications or requirements set forth in the California Building Standards Code (Title 24 of the California Code of Regulations), and I acknowledge that I must provide documentation completed and signed by a licensed contractor when applying for rebates or incentives on HVAC Equipment.

14. This Program (including these Terms and Conditions) may be revised at any time without notice. In such an instance, unless otherwise prohibited under applicable law (including any CPUC order or directive), signed applications will be processed to completion under the Terms and Conditions in effect of the date of such signed application.

15. ICF is an SCE authorized contractor responsible for implementing the AgEE Program through December 31, 2027.
